

# LET'S TALK MITIGATION

## PREPARING FOR DISASTERS NOW PAYS OFF IN THE LONG RUN!

The City of Northampton has launched an effort to update our Hazard Mitigation Plan (HMP). The HMP analyses hazards the City is susceptible to and identifies actions that can be implemented to reduce vulnerability and damage when the hazards occur. We invite you to attend a community workshop to learn about the planning efforts and to provide input regarding hazards that concern you.

Please join us between 6:30pm and 7:30pm.

A formal 30 minute presentation will occur at 6:35pm, and the remaining time will be an open forum to ask questions and interact with HMP steering committee members and project staff.

Due to ongoing COVID-19 gathering restrictions, this will be a virtual meeting. Individuals can connect to the meeting using the Zoom desktop client, mobile app, landline, or cell phone.
